

WING Edit 3.3.4 Release Notes

Added

- StageConnect and AES50 device icons displayed on Routing pages
- Select multiple Sources by holding Ctrl or by right-clicking

Changed

- Ducker HOLD time increased to 30 s
- Relabeled 'DRY' switch for Ultra Enhancer and Psycho Bass FX
- New graphics for UK Rock Amp FX
- Improved placement of VSS3 FX load and scroll buttons
- Pressing GO NEXT / GO PREV always loads scene #1 if no scene is selected
- X-Touch fader bank < > now steps by 16 channels instead of 8 when LAYER OFFSET (+8) is active

Fixed

- HA gain and phantom power loss in offline mode
